

**JOIN TRANS 2022: 6TH EUROPEAN CONFERENCE
„JOINING AND CONSTRUCTION OF RAILWAY VEHICLES“
MAY 11TH – 12TH 2022, WARSAW POLAND**

table of contents

| | |
|---|----|
| Prof. Dr. Steffen Keitel, Chairman of ECWRV „European Committee for Welding of Railway Vehicles“, Halle, Germany The activities of ECWRV and online Register EN 15085 | 5 |
| (IWE/EWE) Attila Erdei, István Stósz, László Kovács, MÁV-START ZRT., Budapest, Hungary Welding aspects of the development of the IC+ vehicle family | 10 |
| Dr. Giedymin Orlik, Transportowy Dozór Techniczny (TDT), Warsaw, Poland Test programs for welders test pieces in the context of the production of rail vehicles and their parts | 19 |
| Dr. Tobias Loose, Dr. Loose GmbH, Walzbachtal, Germany Distortion management in railway vehicle construction | 29 |
| M.Sc. (EWE) Ryszard Ochyra, Axtone S.A., Kańczuga, Poland Experience in the implementation of robotic welding stations in the production of rail vehicle parts | 36 |
| Dipl.-Phys. Holger Alder, M.Sc. (IWE) Uriel Tradowsky, M.Sc. (IWE) Leo Pflugradt, Dipl.-Ing. Dipl.-Wi.-Ing. Wolfgang Albinus, Photon AG, Berlin, Germany Gaining Benefits of Laser Beam Welding in Small and Medium Volume Rail Car Projects (Rocky Mountaineer/Skoda FCX) | 42 |
| Dr. Herbert Staufer, Stephan Schartner, Philipp Lumpf, FRONIUS International GmbH, Wels-Thalheim, Austria Industrial application of modified GMA tandem pulsed-arc welding - Investigation of specific control parameters to increase productivity and joint quality | 49 |
| Dipl.-Wirtsch.-Ing. (SFI/IWE) Boyan Ivanov, EWM AG, Muendersbach, Germany Implementation of a Welding 4.0 welding quality management system explained on real applications in manufacturing and education | 65 |
| Dipl.-Ing. Patric Arlt, SLV Halle GmbH, Halle, Germany EN 15085-2:2020 - one year experiences of manufacture certification | 77 |

**JOIN TRANS 2022: 6TH EUROPEAN CONFERENCE
„JOINING AND CONSTRUCTION OF RAILWAY VEHICLES“
MAY 11TH – 12TH 2022, WARSAW POLAND**

table of contents

(IWE) Eider Alberdi Irastorza, A. Pedrero, MM Petite, Lortek S.Coop., Ordizia, Spain
**Application and validation guide according to EN 15085 for the incorporation
of welding processes in steel products with high mechanical performances90**

Michael Spiess, Safra Deutschland GmbH, Munich, Germany
**Increased work safety and productivity in aluminum railroad car body
construction through trouble-free wire feeding from wire drums102**

Dr. Axel Jahn, Dr. Mirko Riede, Dr. Elena Lopez, Dr. Jens Standfuss,
Fraunhofer IWS, Dresden, Germany
**Laser based welding and additive manufacturing technologies for
advanced metallic railway structures114**

Prof. Dr. Wolfgang Rösch, Institute for Railway Vehicle Maintenance, Leipzig, Germany
**Welding Processes in Railway Vehicle Maintenance in accordance to
the Technical Part of the fourth Railway Package of the European Union118**

Dr. Christian Denkert, Dipl.-Ing. David Kühne, Prof. Dr. Ralf Glienke, Dipl.-Ing. Maik Dörre, Dr. Melanie Fiedler, Prof. Dr. Wilko Flügge,
Prof. Dr. Markus Kästner, Fraunhofer IGP, Rostock/Dresden, Germany
Fatigue resistance of sheet metal sections generated by press-bolts joints due to cold forming133
